

Risk Levels

To ensure the highest level of safety and lowest level of risk for Sport Clubs and participants, the Sport Programs Staff have developed a risk assessment tool, to evaluate sport and physical activity and assign levels with corresponding requirements. The Risk Assessment Tool evaluates each Sport Club based on general sport criteria and statistics as well as factors specific to that organization, such as practice location, and access to emergency facilities.

Groups are analyzed by a number of criteria including, but not limited to:

- Force of impact between participants during activity.
- Force of impact between participants and objects/projectiles during activity.
- Severity of injuries sustained in the activity.
- Type of location activity is conducted in/on.
- Access to emergency personnel and emergency facilities.
- Potential for catastrophic injury as a result of activity.
- Governing body risk requirements.

Based on a quantitative score using the above-mentioned criteria, clubs are placed into one of four acceptable risk levels. Clubs that score higher than the four levels are deemed unacceptably high risk and are not eligible to be a Register Sport Club. Requirements for each level are as follows:

Risk Level 1	Risk Level 2	Risk Level 3	Risk Level 4
<ul style="list-style-type: none"> • Must maintain one (1) active member or affiliate certified in Standard First Aid and Adult CPR/AED. 	<ul style="list-style-type: none"> • Must maintain two (2) active members or affiliates certified in Standard First Aid and Adult CPR/AED. 	<ul style="list-style-type: none"> • Must maintain three (3) active members or affiliates certified in Standard First Aid and Adult CPR/AED. • Members must complete a baseline concussion test prior to participation. • Medical personnel (First Responder, Athletic Trainer, or Lifeguard) are not required but can be request for home club events. 	<ul style="list-style-type: none"> • Must maintain four (4) active members or affiliates certified in Standard First Aid and Adult CPR/AED. • Members must complete a baseline concussion test prior to participation. • Medical personnel (First Responder, Athletic Trainer, or Lifeguard) are required for home club events.

Sport Clubs Risk Levels

Risk Level 1	Risk Level 2	Risk Level 3	Risk Level 4
Bowling	Color Guard	Baseball	Cheer
eSports	Dance Co.	Basketball – Men	Equestrian
	Dancing E’Gals	Fishing*	Football
	Lacrosse – Women	Ice Skating*	Gymnastics
	Tennis	Lacrosse – Men	Ice Hockey – Men
		Medieval Combat	Quidditch
		Powerlifting*	Rugby – Men
		Roller Hockey	Rugby – Women
		Soccer – Men	Spearfishing*
		Soccer – Women	Swim*
		Softball	Water Polo
		Ultimate Frisbee*	Wrestling
		Volleyball - Women	

*These clubs have been identified as higher risk, but are not as likely to incur a concussion-based injury. Therefore, these clubs are exempt from the baseline concussion test requirement.
