

# MATHEMATIC PLACEMENT TEST REFERRAL

Testing & Assessment Services

Name: \_\_\_\_\_ UIN: \_\_\_\_\_

Phone: \_\_\_\_\_ Email: \_\_\_\_\_

**Test Level:**

APCR - Algebra and Pre-Calculus Concept Readiness Test       TAEF - Trigonometry and Elementary Functions Test

Student has not taken any previous math course in FGCU or at an institution of higher education.

**Notes:**

- To take the TAEF exam, passing score on the APCR is necessary.
- A First Time in College (FTIC) student may take the Mobius math placement test if they wish to take an **initial math course** after admission that has a higher level than the course that they initially placed into. The same is true for transfer students who have not taken a mathematics course at an institution of higher education.
- Once an FTIC student has enrolled at FGCU and has taken a mathematics course at an institution of higher education, the Mobius math placement test no longer may be used to improve one's placement. Withdrawing from a course in this context is equivalent to taking a course.
- Transfer students who have taken a mathematics course elsewhere may take the Mobius math placement test if they wish, as a way of confirming that they are appropriately placed and do not need to consider taking a lower-level mathematics course. This test may not be used to "skip" a course when credit or placement has not previously been authorized.
- A student may only attempt to take the test **one time**.

### To Arrange for Testing

- Work with your advisor to complete this form. They must sign and date above.
- Go to the Testing Services webpage (<https://www.fgcu.edu/testing>).
- Click on Mobius – Math Placement Test tab.
- Follow the steps to book an appointment, either online or in-person.

If you are unable to take the Möbius exam as registered, you will need to reschedule. The current rescheduling fee is \$25. Navigate to <https://www.registerblast.com/fgcu> to reschedule.

**You will receive immediate results upon completion of the test. You must meet with your advisor to discuss your course placement in mathematics. Testing Services does not interpret placement test results for students.**
